

## Welcome to New Forest Quaker Care Home

If you are finding it difficult to manage at home and community services cannot offer the help you need, it may well be time to consider residential care to make your life a little easier and more relaxed. New Forest Quaker Care Home is open to all .

The Home was purpose-built and opened in 1977. It is not a requirement that residents be Quakers, or indeed belong to any denomination.

The Home offers a high standard of care, accommodation and food for people over 65 from any area.

“

*I can fully recommend New Forest Quaker Care Home where both my parents have been residents for a number of years. They have received excellent compassionate care with both love and professional skill.*

Stephen M

## Get In Touch

Please contact our Manager, Paul Abbott or our Assistant Manager, Kristie Goode. They will be glad to answer your questions and arrange for you and perhaps a friend or relative, to be shown around the Home.

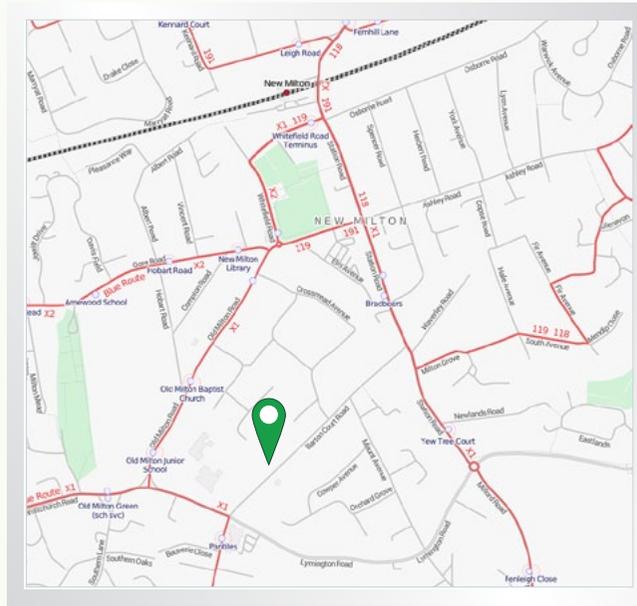

40 Barton Court Road,  
New Milton, Hampshire.  
BH25 6NR.

Tel: 01425 617656

## Short stay/Respite/Day Care

Caring for a loved one can be rewarding, but time off for both of you is essential. Short care breaks, also known as respite, allow carers the time to recharge their batteries whilst offering their loved ones the reassurance of 24-hour care.

We provide 'round the clock care in a safe, comfortable environment, whether just for a few days or up to six weeks. You may consider a short stay care if:

- **You're planning a holiday and require care cover for your loved one while you're away**
- **You fall ill and need additional support**
- **You're considering moving your loved one into a Care Home and they would like a trial visit**

Or you may simply want some social interaction or support whilst your main carer is away during the day.

## Convalescence Care

We offer 24-hour care designed to recuperate the body through a combination of rest, appropriate exercise and a balanced diet for those recovering from surgery or a debilitating illness who may need additional support prior to returning home. We can work in conjunction with community based professionals to support your convalescent care needs.

If you require more information about our care services, please don't hesitate to contact us on:

**Telephone: 01425 617 656**

**Fax: 01425 638 213**

## Taking Good Care Of You

At New Forest Quaker Care Home, we aim to provide all the services necessary to take good care of you. All meals are provided to meet your dietary requirements.

An initial care needs assessment enables us to identify and respect a person's individual needs, choices, dignity, privacy, diversity and independence.

Residents choose their own local Doctor. Community Nurses liaise with our care staff as required. In the event of any personal emergency, staff are on call, day and night, by means of a call alarm and pager system.

## Ideal Facilities

The Home is on two floors with both passenger and stair lifts, two communal lounges, a dining room, sunny garden room and attractive gardens.

There are forty single, unfurnished apartments, all with en-suite facilities and many with showers. Each apartment has a fitted, lockable wardrobe, plus TV and telephone points. There are communal bathrooms and shower rooms on each floor and fridges where you can make your own tea etc. We also have a utility room, including washing and drying machines for personal laundry.

## Making Our Home, Your Own Home

**If you move into New Forest Quaker Care Home, we hope that you will consider it your own home.**

You may furnish your own room as you wish, though all furniture must comply with regulatory requirements. Residents usually bring a single bed, bedside table and lamp, a bookcase and one or two chairs, plus their own bedding and towels. Personal items, such as ornaments, family photographs and pictures, a little crockery, a radio and TV help to make your room a true home from home.

Residents are encouraged to take an active part in the life of New Milton and of the Home, to continue their hobbies, to find new interests and even to rediscover old skills. Voluntary leisure activities within the home include handicrafts, a music club, poetry, yoga, cards, scrabble and outings arranged in conjunction with the resident's wishes.

A weekly Quaker meeting is held, as is a Communion Service, held each month by a local Rector. Ministers from other churches are also regular visitors. You are welcome to join in if you so desire. We endeavour to support your cultural needs and this will be supported via your individual care assessment and plan.
